

INFORMATION TECHNOLOGY AND E-GOVERNANCE

Separate Directorate of Information Technology has been created under Planning and Research Department in the year 2002 to give push to IT related activities in the U.T. of Puducherry. As a result various initiatives taken by the Directorate of Information Technology, computerization has taken place in almost all Government Departments and PC has become vital tool to carryout day to day activities effectively in all government Departments.

Directorate of Information Technology (DIT) is now taken up, promoting IT and ITES services to tap potential for creation job opportunities within UT of Puducherry. Through various incentives which includes i) Development of IT parks ii) Offering attractive incentives to IT and IT related industries to choose Puducherry as destination for starting IT industries and software development units. It is also proposed to set up single window point to speed up the process of issuing licenses to start IT related industries in this UT. Revised IT and ITES policy will also be announced shortly. Private participation in IT related industries will be encouraged. It is also proposed to set up separate Infrastructural Development Corporation exclusively for promotion of IT related industries in this Union Territory.

e-Governance is an important instrument for improving governance and makes it more citizen friendly and transparent. e-Governance requires high quality IT infrastructure, networking capabilities and adequate support and skilled technical manpower available at all levels. Hence, as a part of e-Governance initiatives, it is proposed to establish i) Puducherry State Wide Area Network (PSWAN) ii) State Data Centre. iii) Establishment of e-group services. iv) Setting up of Rajiv Gandhi Knowledge centre v) Setting up of Jawahar Knowledge centre vi) Common Service Centers vii) Training to Government officials and students from Government Schools. Some of the core application, such as School Administration and management system, Employee payroll and HRMS, Accounts, Finance, Purchase and Inventory, GIS based applications and various Departmental application software will be developed by outsourcing technical expertise from outside the government. The services of National Informatics Centre, Puducherry unit may also be utilized for development of application softwares.

Utility services in Municipalities, Commune panchayat, Electricity, PWD, Civil Supplies, Transport, Revenue, Commercial Taxes, Police, Judicial courts will be computerized for quick redressal of the problems that citizen face. e-Governance will also lead to transparency, accountability and speed in the procurement/ tendering process.

Online availability of various certificates will also be provided. Payment of Electricity bill, water tax, sales tax, house tax, property tax etc. through the electronic mode would become reality during the 11th plan in this U.T. of Puducherry.

In close coordination with Directorate of School Education computerization will be initiated at primary school level in all government schools, Computer training through private institute will be encouraged and steps will taken to ensure it is affordable within the reach of the common man.

The existing scheme "Computerisation in various Offices" to be dropped from Annual Plan 2007-08, and the components of the same have been shown as separate new schemes (SI.Nos.2 to 6) in the Draft Eleventh Plan 2007-12 and Annual Plan 2007-08 documents.

Scheme No. 2

Sector : INFORMATION
TECHNOLOGY AND
E-GOVERNANCE

Implementing Department : DIRECTORATE OF
INFORMATION &
TECHNOLOGY

1. **Name of the Scheme** : Strengthening of Directorate of Information Technology

2. **Objective of the Scheme** :

In order to strengthen the Directorate of Information Technology, it is proposed to construct a separate building for this Directorate which includes Administrative Block, State Data Centre, State Training Centre, Conference Hall and setting up of Digital Archive. Land acquisition is under process. Meanwhile, this Directorate is proposed to move into a rental building for a full fledged functioning. In order to give a fillip to I.T. activities of Directorate, it is propose to fill up one full time Director(IT) for full fledged Departmental functioning, including cadre controlling. Apart from this, in order to take up various e-Governance projects as per the norms of the National E-Governance Plan (NeGP) in a speedy and transparent way, this Directorate proposed to enhance the existing manpower structure at various levels of project management. The detailed structure of the proposal is enclosed.

State Data Centre: Government of Puducherry is embarking on a statewide automation of its operations and implementing e-Governance initiatives, all the departments would need to maintain servers for the respective applications. Managing these servers / infrastructure would require investing in substantial dedicated resources at each department / location. The Data Center would provide a centralized location for hosting and managing all the servers and result in substantial cost savings for GoP with improved infrastructure facility. With the falling costs of communication, centralized architecture becomes a reality. This would call for a facility that provides a platform for effective management of information assets being created by GoP, as a part of its e-governance initiatives.

(Rs. in lakh)

Scheme No. 3

Sector : INFORMATION
TECHNOLOGY AND
E-GOVERNANCE

Implementing Department : DIRECTORATE OF
INFORMATION &
TECHNOLOGY

1. Name of the Scheme : Introduction of e-Governance G2G

2. Objective of the Scheme :

The main Objectives of this scheme are (i) to automate the entire government administration for transparency, accountability and simplification in Government procedures, (ii) to provide integrated software solution in the areas:

- Employee Payroll & Human resource management
- School Management System
- Accounts & Finance and Purchase & Inventory.

To provide network connections to all Departments, Corporations, PSUs, Quasi-Government bodies of Union Territory of Puducherry. Directorate of Information Technology proposed a comprehensive solution for Payroll & HRMS, Accounts and Finance Purchase & Inventory and Management of School Administration and for interaction with DAT

To provide technical support for software development and support the existing software in all the departments of this administration, either through outsourcing or internal development. To provide regional language support to the proposed software application.

PSWAN:

The State Wide Area Network will effectively and efficiently meet the requirements of State Government for voice, video and data communications, with the goal of achieving a single centralized communications infrastructure for the state. The State Wide Area Network will make it possible for the Government Departments to access State Government information and applications hosted from the Data Centre.

Objectives of PSWAN:

- a) To provide connectivity extended upto block level.
- b) To establish a state communications infrastructure, interlinking around 50 Government Departments in Puducherry and outlying regions, namely Karaikal, Mahe and Yanam. This will provide secure and easy access to the applications and data hosted at the State Data Centre in Puducherry.

Technical Officer (IT)/ Data Processing Assistant	5500-9000	9
IT Assistant /DEO	4500-7000	15

Scheme No. 4

Sector : INFORMATION TECHNOLOGY AND E-GOVERNANCE

Implementing Department : DIRECTORATE OF INFORMATION & TECHNOLOGY

1. Name of the Scheme : e-Knowledge Centre

2. Objective of the Scheme :

The Objectives of the scheme is to make all the Government officials of ministerial cadre as computer literate by imparting training on Office Automation to satisfy their needs in official computer operations and to offer specialized training to Government officials as and when necessity arises. It is also proposed to adopt the best practices found in other states and roll out the same for the beneficiaries of student communities.

Jawahar Knowledge Centre (JKC) :-

Under this scheme it is proposed to impart training to students studying in the final year college level and help them for getting placements.

Rajiv Gandhi Knowledge Park (RGKP) :-

A training center for excellence will be established, by which reputed international companies are invited to provide hands-on training in their latest technological trends. It is proposed to provide adequate training hall and lab facilities with state-of-art infrastructures. The training facility, thus provided to the student, will be at a very nominal cost.

	(Rs. in lakh)

Scheme No. 5

Sector : INFORMATION
TECHNOLOGY AND
E-GOVERNANCE

Implementing
Department : DIRECTORATE OF
INFORMATION &
TECHNOLOGY

1. Name of the Scheme : e-services to citizens

2. Objective of the Scheme :

a) Common Services Center (CSC) :-

Government of India has proposed to establish more than 1,00,000 Common Service Center throughout India. Out of which, Union territory of Puducherry has proposed to establish 100 Common Service Centers. The CSCs are meant to provide high quality and cost effective video and data services in the areas of e-Governance, such as, Education, Health, Tele-medicine, Entertainment as well as other possible Government and private services. The CSCs are proposed to be rolled out by middle of 2007.

The Goal of the CSC project is to empower the rural community and catalyze social change through modern technologies. With a large and heterogeneous geographical area, the private sector, if sufficiently encouraged, can play an active role in development and implementation of the CSC project in supplementing the Governments' efforts to realize its vision for the project.

b) Public e-Grievances Cell:

It is proposed to setup a separate call center to attend e-grievances activities of the citizen, relating to government departments of UT of Puducherry, the cell will function at 24x7 mode.

(Rs. in lakh)
