

FISHERIES

The Union Territory of Puducherry comprises of four region namely, Puducherry, Karaikal, Mahe & Yanam with a total coastal line of 45 kms, 1000 sq.km of continental shelves enriched with marine fisheries potential. It has a fishermen population of about 65,000 of which 13,000 nos. of fishermen are actively engaged in fishing from 27 marine fishing villages and 23 inland fishing villages/hamlets scattered in and around Union Territory of Puducherry. This Union Territory is also endowed with 1400 Ha of fresh water area in the form of Ponds and Tanks suitable for both capture and culture fishery. 800 Ha of Brackish water area are available for undertaking Brackish water Prawn culture.

Fishery Sector has become a vital sector riched with a source of livelihood for generating employment to a large extent of the society as well as sharing for national food security and valuable foreign exchange earnings. Under marine sector, coastal fisheries in many parts of the country having reached a saturation level, unexploited potential which lies in the deep sea, has to be tapped up by adopting diversified method of fishing, by implementation of code of conduct for responsible fishery (CCRF), observance of closed season in the east & west coast etc., It is imperative to modernize the sector with diversified method of fishing with various new components related to exploitation of deep sea oceanic fishery resources, sea safety measures, insuring of fishing fleets etc., to ensure availability of fish in prime condition to the consumers and fishing industry. Sea weed culture, Mud crab fattening is also proposed to be taken up. Sea ranching is another programme for natural stock enhancement by stocking with hatchery bred juveniles. Under Inland sector, best efforts were taken to augment the inland fish production by adopting scientific method of culture practice & providing subsidy for sustaining the cultural process.

Various development & welfare oriented schemes are implemented from time to time with the objectives of augmenting Marine, Fresh water and Brackish water fishery production and also for uplifting the socio-economic status of the fisher folk with due focus on safeguarding the interest of all sectors of fisher folk and for conserving the Marine, Inland and Brackish water resources on sustainable basis. Special thrust have been focused to accomplish above goals through successive plan periods. As a result of it, the socio-economic status of the fishermen have developed considerably. Unfortunately due to the recent havoc of Tsunami that hit on 26/12/04, the entire coastline of Puducherry and Karaikal had been devastated, most of the fisher folk lost their properties and some of the fisherfolk lost their family members. To retrieve the plight of fishing community from distress, liberal compensation have been extended to them and the Govt. has now decided to concentrate more on providing alternate livelihood in order to accentuate their standard of living.

During the Eleventh Five Year Plan 2007-12, Construction of Fishing Harbour at Karaikal and Mahe will be completed for providing safe berthing facilities to the mechanised fishing vessels. It is proposed to set up one mini Fishing Harbour at Yanam with basic infrastructural facilities. 200 Ha of fresh water areas will be brought under fish culture granting input subsidy @ Rs.5000/- per acre besides covering 10 Ha for fresh water prawn farming. Fish seed rearing in happa will be encouraged besides promoting Sea Weed culture, Mariculture, Mud Crab fattening etc., 50% subsidy will be granted to fishermen for conversion, modernization, replacement of worn-out wooden hulls, for wooden boats with size 47' and above. It is also proposed to grant subsidy to steel hulled mechanised boats with size 45' to 54' and 55' to 65' to exploit the untapped fishery resources in deep sea. 50% subsidy will also be granted for modifying the existing fishing vessels for Tuna long lining. 50% subsidy for insulated fish van will be granted besides encouraging mini lorry, mini truck for quick transport of fish. Three Aquarium, one each at Karaikal, Mahe and

Yanam will be established. 500 fisherwomen will be imparted with short term training on Ornamental Fish Breeding & Fish keeping, Co-operative Management and Value added Fishery products etc., 25,000 nos. of life saving appliances and 5000 nos. of Ice boxes will be supplied at free of cost to boat operators. Training will be imparted to fishermen community in the field of modern fishing technology, canning and packing. Puducherry Institute of Fisheries Science and Technology will be established in Puducherry and Karaikal region. Exploration of Deep-sea fisheries in Puducherry and one Oceanarium will be established in Puducherry, one Fisheries Development Corporation will be established in Puducherry. 22,000 fishermen families will be assisted with 100 kgs Rice and Rs.750/- cash during fishing ban period. 5800 old aged fisher folk will be granted with Old Age Pension @ Rs.750/- each per month who attained the age of 50 and above. Grant-in-aid will be made to Puducherry State Fishermen Co-operative Federation and Puducherry Fishing Harbour Management Society.
