

INFORMATION TECHNOLOGY & E-GOVERNANCE

Directorate of Information Technology is implementing the following Mission-Mode Projects :

a) Puducherry State Wide Area Network

Puducherry State Wide Area Network is a connectivity infrastructure, which will connect all Government Offices through computer so that they can communicate with each other and share applications.

b) State Data Centre

The State Data Centre is an infrastructure, which will house server farm to host all applications and to store data in a secured way.

c) Common Service Centre

Common Service Centres are the service delivery points through which the citizens can file their applications and avail services such as ***obtaining certificates and making payment to the Government, etc.***

d) Capacity Building

The Capacity Building deals with equipping the existing man-power as a good resource to cope up with current need in line with e-Governance.

e) State Service Delivery Gateway and State Portal

The State Service Delivery Gateway and State Portal is an interface infrastructure between the Government and the citizens for effective way of delivering the services as e-Services.

f) e-District

The e-District Project is planned in Puducherry District as pilot to cover ten services under District Administration.
